DRAFT

April 23, 2004

Ms. Joyce Washington
Manager, Commercial Real Estate Div.
Port of Oakland
530 Water Street, 6th Floor
Oakland, CA 94607

Ms. Adrienne Klein
Chief of Enforcement
BCDC
50 California Street, #2600
San Francisco, CA 94111

Re: BCDC Permit File No. 19-85(B), issued to the Port of Oakland
and Scott's Seafood Restaurant

Dear Ms. Washington and Ms. Klein,

Per a conversation with Michael Stagg representing Scott's Seafood Restaurant, I will serve as the conduit between Scott's, the Port of Oakland and BCDC regarding the monitoring of Permit 19-85(B). Per Ms. Klein's letter dated February 13, 2004, please note the following:

Special Condition II-B-2:

1. Scott's is in compliance with submitting their quarterly schedules to BCDC, however they are requesting that BCDC revisit their 20% quarterly use of the Public Pavilion to a more flexible 20% use throughout the year. Their seasonality peaks in May/June (primarily for weddings) and November/December (holiday banquets) whereas they are fairly dark during the first quarter. I truly believe this will result in fewer unscheduled events while still allowing public access to the estuary 80% of the time. I would appreciate the opportunity to discuss this further and provide a sample schedule.
2. The original 2003 schedule is attached. Please note that Scott's was in violation of their submitted schedule seven times in 2003 (please see the attached Incident Report Photos). Let's discuss how we should submit the proposed vs. actual usage and perhaps we should allow one to two days for tent repairs throughout the year. In the future, we will ensure this report is submitted by March 1st on an annual basis.
3. We will continue to monitor the use of Scott's tent particularly during tent set-up and breakdown. Scott's record of tent breakdown 12 hours after an event has been excellent, however, many times they require more than six hours set-up based upon the complexity of the event. Scott's requests your consideration of adding an additional six hours for set-up. I would appreciate the opportunity to discuss this further.

4. We need to better monitor the replacement of the public site furnishings immediately after each event. I will walk the site with Richard Sinkoff and identify how the public furnishings should be arranged and ask him to incorporate this layout in the Signage and Streetscaping scope of work. Scott's has installed nine new benches and is purchasing three new, compatible tables. This will eliminate the use of the aluminum chairs and marble tabletops in the Public Pavilion.
5. During our walk-through on April 2, 2004, Ms. Klein approved California Canoe & Kayak's layout in the Public Pavilion. By copy of this letter, we are requesting Mr. Sinkoff to include this layout in the Signage and Streetscaping scope of work.

Special Condition II-B-4:

1. Colorful banners are flying atop the Public Pavilion. Let's determine if this fulfills the permit.
2. The permit calls for two sets of binoculars (four). Let's discuss locations and possibly walk the property to confirm actual locations. By copy of this letter, we are requesting Mr. Sinkoff to include the approved binocular locations in the Signage and Streetscaping scope of work.
3. During Scott's events, signage should direct the public into the Pavilion and around the Bayside of the restaurant. By copy of this letter, we are requesting Mr. Sinkoff to include this signage in the Signage and Streetscaping scope of work. Once the sign(s) are produced, Scott's will be responsible for the set-up and take-down of the signs.

I look forward to discussing the above with you. Thank you for your time and consideration.

Sincerely,

Rhonda Hirata
Director of Marketing and
External Communications
